

Rutine for bestilling av transport for Aibels leverandører

Aibels leverandører skal nå bestille transporttjenester elektronisk. Aibel har sammen med Bring tatt i bruk funksjonalitet som muliggjør elektronisk rapportering av forsendelsesdata på PO (Purchase Order) varelinjenivå. Ny løsning iverksettes med referanse til bestillingstekst i PO.

For deg som har ukentlige eller daglige leveranser vil Mybring-løsning være formålstjenlig. Mybring er en gratis selvbetjeningsløsning, hvor du enkelt bestiller transport av Stykkgoods til Aibel. En EDI løsning bør vurderes ved et høyt antall leveranser.

Slik kommer du igang med Mybring

- Logg inn på mybring.com – så er du i gang!
- Dersom du ikke allerede har tilgang til MyBring, kan du registrere deg på mybring.com
- Bring gir deg tilgang og rettigheter i Mybring
- E-post med brukernavn og passord sendes til deg

Så enkelt bestiller du

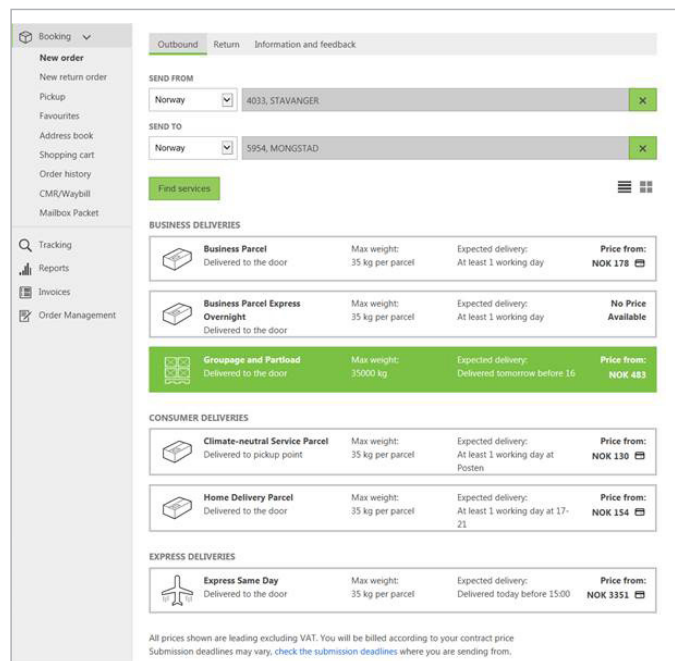

- Order Management gir deg oversikt over alle dine bestillinger
- Transportbooking av PO direkte fra Order Management gir deg ferdigutfylte felter
- Skriv inn antall kolti, vekt og størrelse
- Bekreft eller endre hvilke varelinjer som skal sendes
- Skriv dato for opphenting
- Send transportbestilling

Hastebestillinger/ekspress leveranser

En slik leveranse krever skriftlig forhåndsgodkjennelse av Aibel. Bestilling av transport hos Bring håndteres pr. telefon 52 73 36 15 og på booking.aibel@bring.com
