

# **Label description - Appendix E Description of special requirements for Return products**

Version 003 (1/11-2017)

Final

### **Return products**

With the following products, Bring makes it easy for customers to offer a return service to their customers (from Denmark, Norway, Sweden and Finland).

0331- Business Parcel Return

0333- Business Parcel Return Bulk

0341- PickUp Parcel Return

0343- PickUp Parcel Return Bulk

Bring offers different options for the production of transport labels:

- 1) Transport label may be produced by the sender at the same time as the label for the outbound parcel. In this case the return label is forwarded in the parcel to the receiver.
- 2) Transport label may be produced by the sender and forwarded to the receiver by mail.
- 3) Labels for the return parcels may be printed by the receiver from **Mybring**. Mybring is a WEB based system with functionality to produce labels and EDI for Bring products.

Customers may have agreement for different return products per country.

### Label

In general the label is produced in the same way as the outbound label with a new package-ID from the same series as the outbound label (see examples on page 6/7).

However from Sweden and Finland product 0341 and 0343 requires a special local label as specified on the following pages.

In case of BulkReturn (product 0333 and 0343) and product 0341 from Sweden and Finland the return address (To-block on the label) must be the customer name c/o Bring Parcels with a terminal address in the sending country.

Return labels are normally valid for 3 months after printing and the "Not valid after" date must be printed on the label in To-block.

### **Special label requirements**

### Product 0341/0343 from Sweden

A special label layout must be used for product 0341/0343 from Sweden (see example page 9).

Packages with product 0341/0343 from Sweden should in addition to the GS1 SSCC package-ID barcode carry a sorting barcode.

### Sorting barcode

Symbology: Code 128

Contents:

Data Identifier: 2L

Fixed code: SE55810+02000004 X-module: min 0.375 mm Height: min 22 mm

#### Package-ID barcode

Data identifier:GS1 Application Identifier (00) in the barcode specifies that it is a package-ID.

Symbology: GS1 128 according to EAN/UCC standard (code 128 with FNC1 according to EN799)

X-dimension (most narrow module): Min. 0.375 mm

Symbol height: Min. 27 mm

Empty space before and after the barcode should be at least 7 mm

See more information about GS1 SSCC in Transport Label specification for Bring Parcels page 6.

### Return address (in the To: block)

Customer name c/o Bring Parcels AB Bordsvägen 3 SE-55810 Jönköping

### Product 0341/0343 from Finland

A special label layout must be used for product 0341/0343 from Finland (see example page 10).

Product barcode:

Symbology: Code 128

Contents:

Data Identifier: 2W Fixed code: 2108

X-module: min 0.42 mm Height: min 12 mm

Sorting barcode

Code 128 Symbology:

Contents:

Data Identifier: 52L Fixed code: 00002

X-module: min 0.42 mm Height: min 20 mm

Package-ID barcode:

Symbology: Code 128

Contents:

Data identifier J

JFI61518230010 followed by a 6 digit serial number Identity

(special range is required)

X-dimension: min 0.4 mm min 27 mm Height:

• Return address (in the To: block)

Customer name c/o Bring Parcels AB

PL 3710

FI-00002 Helsinki

### Return addresses for product 0333/0343 from Norway & Denmark

**Denmark Norway** <u>Denmark</u>

Customer name Customer name Customer name c/o Logistikksenteret c/o Bring DK c/o Bring SE

> Fuglebaeksvej 5-9 Fuglebaeksvej 5-9

NO-0060 Oslo DK-2770 Kastrup DK-2770 Kastrup

### **Product 0348 from Sweden and Denmark**

When product 0348 is sent cross border a terminal address must be used in TO field on the label and NAD+ZRR segment in the EDI file.

<u>Sweden</u>	<u>Denmark</u>	<u>Denmark</u>
Customer name	Customer name	Customer name
c/o Bring Parcels	c/o Bring DK	c/o Bring SE
Bordsvägen 3	Fuglebaeksvej 5-9	Fuglebaeksvej 5-9
NO-0060 Oslo	DK-2770 Kastrup	DK-2770 Kastrup

### **EDI**

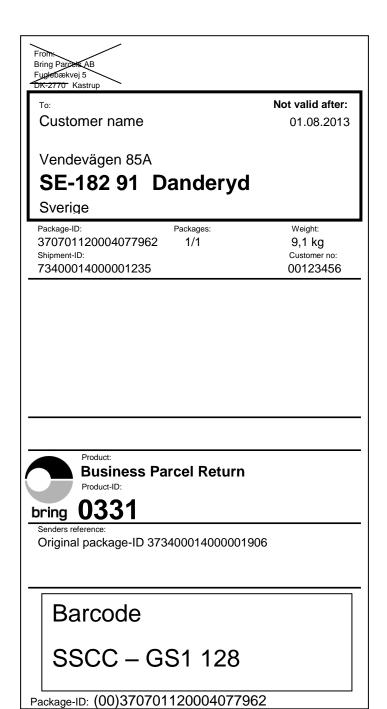

A separate EDI message must be sent for the return parcels when the labels are printed. The EDI recipient must be the same as on the outbound parcel. Sender and consignee addresses are switched (please refer to the Bring EDI guideline).
