IFTMIN

This is a branching diagram. Every variant of a segment or segment group described in the MIG appears exactly one times. The letters M and R characterise a 'mandatory' application status, whereas O means optional. The letter D is used for 'dependent' and the dependency will be described in comments. The number on the right-hand side explains the maximum occurence of this segment or segment group. The undermost number is the consecutive number of the segment within the guide.
